

The Texas Association of Community Health Centers (TACHC) and Community Health Ventures, the business affiliate of NACHC, are pleased announce a collaborative partnership to help drive additional savings to health centers through the Value in Purchasing Program.

This program is endorsed by TACHC in an effort to provide their members even greater savings on their supply chain purchases of medical/surgical supplies.

The program is simple to join and medical supply distribution continues with Cardinal Health, a valued partner of TACHC and the ViP Program.....Nothing changes as far as process flow in place at your health center today, with the exception of your pricing being lower.

The TACHC 340Better pharmacy program is still in place. This collaboration simply brings more power in savings to your health center.

For additional information and to learn how to get started, please contact John Lamb, Vice President of Sales and Client Services for the ViP program or Lynn Ford, Purchasing Program Coordinator for TACHC.
